BOARD OF SUPERVISORS

COUNTY OF YOLO

Woodland, California

August 5, 1975

To the Citizens and
Taxpayers of Yolo County

In accordance with the provisions of State Law governing county budgets and budget procedures, the Board of Supervisors has adopted the Proposed County Budget of $29,980,583 for the fiscal year 1975-76. The 1975-76 Proposed Budget does not require an increase in the property tax rate.

The final budget hearings are scheduled to begin on August 19, 1975 at 1:30 P.M. in the Board of Supervisors Chambers. Copies of the printed 1975-76 Proposed Budget will be available at the Office of the County Auditor-Controller on Friday, August 8, 1975.

As reviewed by the Board of Supervisors, this Proposed Budget for 1975-76 is a stringent budget, and we believe that the County can and must live within the limits of this budget.

For the past number of years the Board of Supervisors has been able to stabilize the tax rate so that the action by the legislature in "freezing" or restricting the county property tax rate does not at this time create a problem for the Yolo County Board of Supervisors in financing county services. This year the increase in net local assessed valuation of approximately 19.8 will be the primary source of financing inflationary costs which have affected our expenditures in all categories. The tax rate to support this budget will still be five cents less than the 1972-73 tax rate.

While it is true that we can properly provide for maintaining progressive county services this year, we must recognize that to do so in the future to adequately serve the needs of our citizens, it will be simply necessary to be more efficient and more economical in order to live within the limits set by the legislature. We have been able to maintain a reasonable tax rate in past years, and we will endeavor to continue to do so in the future years.

Yours very truly,

Betsy A. Marchand

Honorable Betsy A. Marchand, Chairman
and Members of the Board of Supervisors

This is a summary report on the 1975-76 Proposed Budget submitted for review by the Board of Supervisors and citizens and taxpayers during the Final Budget hearings on the 1975-76 Budget. The Proposed Budget reflects the changes made by the Board of Supervisors in public hearings on the development of the Proposed Budget, together with the adjustments made by the County Auditor-Controller relative to the Board of Supervisors' instructions and the computation of taxes. The 1975-76 Proposed Budget totals $29,980,583 which is $638,991 less than the 1974-75 Final Budget total of $30,619,574.

As compared with the 1974-75 Final Budget, there are significant changes in the Proposed 1975-76 Budget, both with respect to reductions from 1974-75 and additions. These changes are as follows:

BUDGET REDUCTIONS FROM 1974-75

Building Fund	minus	$2,997,012
Aviation Fund	minus	9,750
Road Fund	minus	17,638

BUDGET INCREASES OVER 1974-75

General Fund	plus	$2,351,836
Fish and Game Fund	plus	851
Library Fund	plus	32,722

When the expenditure increases of $2,385,409 in the 1975-76 Proposed Budget are deducted from the decreases of $3,024,400, the gross reduction in the Proposed Budget from last year is $638,991. As indicated above, the principal reduction occurred in the Building Fund, and this is due to construction projects now in process with funds that have been accumulated over past years, such as for the New Juvenile Hall and Revenue Sharing funds utilized for the Centralized Solid Waste Disposal facility.

The County Government along with every family in the County has felt the costs of inflation and County purchases for all types of goods and supplies as well as labor costs have increased proportionately. This means that the General Fund which provides for all of the regular operating functions of the County Government, with the exception of Library and Roads, has had to receive additional funds through a combination of year end carry-over balance and the results of increased property assessment. As a result the General Fund expenditure program has increased from

$23,192,073 in 1974-75 to $25,543,909 for an increase of $2,351,836 in the Proposed Budget for 1975-76. Despite this substantial increase, the Proposed Budget to be considered by the Board of Supervisors does not require an increase in the basic county tax rate. This also is true with respect to all other funds--the Building Fund, Library Fund, and the Road Fund. For specific information as to the status of the various funds, Table I provides for comparative information from the prior budget year 1974-75 through the Proposed Budget for 1975-76, including the various steps in the process through which the budget was developed. Table II provides the information on the detailed changes made in all budgets as a result of budget hearings for the individual departments and functions of the County Government through which the Proposed Budget was developed.

In February 1975 the Department Heads submitted their requests totaling $30,396,043. After a review of these requests, the recommended budget by the County Executive to the Board totaled $28,780,071 or $1,615,972 less than what was requested. Through the preliminary hearings, the Board of Supervisors restored only $94,853. Final adjustments by the County Auditor-Controller based upon the actual year end fund balances available together with the results of the assessment roll established a total budget of $29,980,583. Such financial adjustments resulted in placing any unallocated funds in the Reserve for Contingencies. As a consequence, the Proposed Budget is a stringent budget, and the Board of Supervisors allowed only 12½ new positions as compared with the 76 new positions which were requested by the various departments. As of this date, salary negotiations with the representative organizations of employees have not as yet been finally determined by the Board of Supervisors, and it is anticipated that the costs for salary adjustments will be taken from the Contingency Fund in the General Fund, the Library Fund and the Road Fund.

For informational purposes, the Fish and Game Fund and the Aviation Fund are non-property tax funds. Revenue for Fish and Game is derived from fines and forfeitures, and revenue from the Aviation Fund is obtained from an actual allocation of State gas tax funds plus a matching amount which is obtained from airport revenues.

The County Building Fund for the Proposed Budget is in the amount of $1,237,919 with a 12¢ property tax to remain the same as in the prior year. The Board of Supervisors, through other actions, has approved additional capital outlay funds from Revenue Sharing monies for a total of $959,984 to supplement the Capital Outlay Program which could not be funded within the limits of the 12¢ tax rate. Table III is included in this report which gives the specific detail as to the proposed use of all of these funds in this Capital Outlay Program. It will be necessary in the Final Budget hearings to adjust this particular budget due to last minute revenue changes which were not known at the time the Board of Supervisors adopted the Proposed Budget. The combined property tax revenues and the Revenue Sharing Fund, as allocated by the Board of Supervisors, establishes a total of $992,974 available for construction of a future administration building.

Pursuant to Federal Law, the Board of Super-

visors has taken required action with respect to allocation of Revenue Sharing funds and also funds for the Comprehensive Employment and Training Act (CETA), the latter relating to employment of unemployed persons in the County. After the conclusion of the Final Budget hearings, the County Auditor-Controller will place in the proper tables of this budget the amount of $1,703,223 of Revenue Sharing funds and $1,605,000 for the CETA fund. Both of these Federal funds are operated as trust funds and reference in this budget letter is for the purpose of providing all necessary information relating to County expenditures, regardless of source of funds. With respect to the CETA funds, the County is administering agent and, of the total amount of funds allocated to Yolo County, the County only utilizes a total of 55 positions amounting to $446,837. The remaining funds have been allocated to cities, fire districts, school districts and other governmental jurisdictions, including the University of California at Davis.

The County also provides for certain services in the County through Enterprise Funds which are operated as separate businesses. These are as follows: Yolo General Hospital, Salud Clinic in East Yolo, the County Airport, Transit (local bus service), and the Centralized County Landfill. The total expenditures for these separate business funds is included in Table IV of this report. The Board of Supervisors, during the course of the hearings for the development of the proposed budget indicated reconsideration of certain budget items, and these will be presented in a separate report in conjunction with the final budget hearings which is the required procedure under the State budget law. Such other adjustments presented in the hearings may also be advisable.

Respectfully submitted,

Erwin W. Meier

THIS AGREEMENT, made in duplicate this 15th day of SEPTEMBER, 1975, by and between the COUNTY OF Yolo, a political subdivision of the State of California, hereinafter referred to as "COUNTY", and the STATE OF CALIFORNIA, acting by and through the Department of Transportation, hereinafter referred to as "STATE".

WITNESSETH

(EXHIBIT - A)

OLA 212 Rev. 8/74

ARTICLE I - Contract Administration

1. The project or projects described in Exhibit A, hereinafter referred to as "the project" shall be constructed as provided in this agreement.

2. Construction work:

(a) FAS construction shall be performed by contract. STATE/~~COUNTY~~ shall make final preparations for advertising, advertise and award the contract, and make payments to the contractor as the same become due.

(b) Exchange Dollar Construction may be performed by contract or by day labor at the option of the COUNTY provided the competitive bidding requirements of State or local agency laws (whichever are applicable) are met.

3. The estimated cost of the project is as shown in Exhibit A hereto. A contract for an amount in excess of said estimate may be awarded and project expenditures may exceed said estimate if both STATE and COUNTY concur in the amount of and the necessity for the excess and sufficient money is available to finance same.

4. Administration of project:

(a) If STATE is to administer the project, COUNTY shall deposit its share of the estimated cost as specified on Exhibit A with the STATE prior to the time funds are required to reimburse contractor. STATE will bill COUNTY for amount due immediately following Contract award or at option of COUNTY will submit monthly bills during the life of the Contract. Funds deposited prior to award which are in excess of requirements, will be immediately refunded to COUNTY. Should COUNTY fail to pay monies due STATE within 30 days of demand or within such other period as may be agreed between the parties hereto, STATE, acting through State Controller, shall withhold an equal amount from future apportionments due COUNTY from the Highway Users Tax Fund.

(b) If COUNTY is to administer the project, STATE shall pay the proportionate Federal and State shares of the eligible participating costs within twenty (20) days of COUNTY'S submittal of acceptable monthly progress pay estimates for expenditures on an awarded project.

(c) If the project is a cooperative project and includes work on a state highway, the project shall be the subject of a separate cooperative agreement between the State and County.

5. STATE shall exercise general supervision over FAS work and may assume full and direct control over the project whenever STATE, in its sole discretion, shall determine that STATE'S responsibility to the United States so requires.

6. The Congress of the United States, the Legislature of the State of California, and the Governor of the State of California, each within their respective jurisdictions, have prescribed certain employment practices with respect to contract and other work financed with Federal or State funds. COUNTY shall insure that work performed under this agreement is done in conformance with the rules and regulations embodying such requirements where they are applicable. Any agreement or service contract entered into by COUNTY for the performance of work connected with the project shall incorporate Exhibit B attached hereto.

7. Ineligible Work:

(a) On projects subject to Federal regulations, all costs properly chargeable to the project but ruled ineligible under Federal-aid Highway Acts shall be paid by COUNTY and shall not be reimbursed by STATE.

(b) On projects subject to only STATE regulations, the Exchange Dollar Funds may be used only for road purposes (to FAS standards) on or off the Federal-aid Secondary System.

8. After completion of all work under this agreement and after all costs are known, any unused COUNTY money shall be refunded. COUNTY monies deposited for preliminary engineering, construction engineering, and contract work shall be considered to be interchangeable, and shortages of COUNTY money in one such category may be made up from unused COUNTY money in another category. When the amount of unused COUNTY money is substantial and there is an unusual delay in determining final costs, STATE shall upon request make an interim refund of the funds known to be in excess.

9. When requested by COUNTY, STATE shall arrange for payment of available project funds for royalties due a property owner for borrow material furnished to the contractor for the project under an agreement between the property owner and COUNTY which has been approved by STATE. A certified copy of such agreement must be filed with STATE.

10. When the project includes work to be performed by a railroad, the contract for such work shall be entered into by COUNTY or by STATE, at COUNTY's option. A contract entered into by COUNTY for such work must have the prior approval of STATE. In either event, COUNTY shall enter into an agreement with the railroad providing for maintenance of the protective devices or other facilities installed under the service contract. At the request of COUNTY, STATE shall make direct payment of project funds to a railroad for work performed under a contract between COUNTY and the railroad.

ARTICLE II - Rights of Way

1. Such rights of way as are necessary for the construction of the project shall be furnished by COUNTY, and no contract for the construction of the project or any portion thereof shall be awarded until the necessary rights of way have been secured. Prior to the advertising of the project COUNTY shall furnish STATE with evidence that necessary rights of way are available for construction purposes or will be available by the time bids are opened.

2. The furnishing of rights of way as provided for herein includes in addition to all real property required for the improvement, free and clear of obstructions and encumbrances, the payment of damages to real property not actually taken but injuriously affected by the proposed improvement, COUNTY shall pay from its funds the cost acquiring rights of way and any costs which arise out of right of way litigation, or out of delays to the contractor because utility facilities have not been removed or relocated, or because rights of way have not been made available to the contractor for the orderly prosecution of the work.

3. Whether or not Federal-aid is to be requested for right of way, should COUNTY, in acquiring right of way for FAS improvement, displace an individual, family, business, farm operation, or non-profit organization, relocation payments and services will be provided as set forth in Chapter 5 of Title 23, U. S. Code. The public will be adequately informed of the relocation payments and services which will be available and to the greatest extent practicable no person lawfully occupying real property shall be required to move from his dwelling or to move his business or farm operation without at least 90-days written notice from the COUNTY. COUNTY will provide the State with specific assurance, on each project, that no person will be displaced until comparable decent, safe and sanitary replacement housing is available within a reasonable period of time prior to displacement, and that COUNTY'S relocation program is realistic and is adequate to provide orderly, timely and efficient relocation of displaced persons for the project

as provided in FHWA Instructional Memorandum 80-1-71, dated April 30, 1971. Exchange Dollar projects will comply with applicable State laws.

ARTICLE III - Engineering

1. "Preliminary engineering" as used herein includes all preliminary work related to the project, including but not restricted to preliminary surveys and reports, laboratory work, soil investigations, preparation of plans, designs, and advertising. "Construction engineering" as used herein includes actual inspection and supervision of construction work, construction staking, laboratory and field testing, field reports and records, estimates, final reports, and allowable expenses of employees engaged in such activities.

2. Preliminary and construction engineering costs included in the estimate contained in Exhibit A may be financed with project funds. The remainder of such costs shall be financed by COUNTY without reimbursement. When preliminary engineering or construction engineering costs incurred by COUNTY are to be financed with project funds, STATE shall reimburse COUNTY for services performed on the basis of the actual cost thereof to COUNTY, including compensation and expense of personnel working on the project, required materials, and automotive expense provided, however, that COUNTY shall contribute its general administrative and overhead expense. Payments for such services shall be made by STATE upon receipt of invoices from COUNTY prepared in such form and supported by such detail as may be prescribed by STATE.

3. Unless the parties shall otherwise agree in writing, COUNTY'S employees shall perform all engineering work. When preliminary or construction engineering for the project is performed by STATE, charges therefor shall include an assessment on direct labor costs in accordance with Section 8755.1 of the State Administrative Manual. The portion of such charges not financed with Federal funds or State-supplied matching funds or Exchange funds shall be paid from funds of COUNTY.

ARTICLE IV - Miscellaneous Provisions

1. If Federal funds are used for this project, this agreement shall have no force or effect unless and until the project is approved by the United States, nor shall any of the Federal and State matching funds provided herein be expended unless and until the Federal Government has agreed and is obligated to reimburse STATE in full for the amount of Federal funds to be expended.

2. In the event that the project is programmed on a stage construction basis, COUNTY shall complete the project to its final stage, with or without Federal aid, at such time as traffic or other conditions warrant and in a manner satisfactory to STATE. Should the work covered by this agreement involve a bridge without approaches, within a period of two (2) years after completion of the bridge, COUNTY shall cause such approaches to be constructed, with or without Federal aid, to design standards acceptable to STATE.

3. The cost of maintenance performed by COUNTY forces during any temporary suspension of the work may be charged to COUNTY funds in the project if such are available therefor.

4. (a) Neither STATE nor any officer or employee thereof shall be responsible for any damage or liability occurring by reason of anything done or omitted to be done by COUNTY under or in connection with any work, authority or jurisdiction delegated to COUNTY under this agreement. It is also understood and agreed that, pursuant to Government Code Section 895.4, COUNTY shall fully indemnify and hold STATE harmless from any liability imposed for injury (as defined by Government Code Section 810.8) occurring by reason of anything done or omitted to be done by COUNTY under or in connection with any work, authority or jurisdiction delegated to COUNTY under this agreement.

(b) Neither COUNTY nor any officer or employee thereof, shall be responsible for any damage or liability occurring by reason of anything done or omitted to be done by STATE under or in connection with any work authority or jurisdiction delegated to STATE under this agreement. It is also understood and agreed that, pursuant to Government Code Section 895.4, STATE shall fully indemnify and hold COUNTY harmless from any liability imposed for injury (as defined by Government Code Section 810.8) occurring by reason of anything done or omitted to be done by STATE under or in connection with any work, authority or jurisdiction delegated to STATE under this agreement.

5. Auditors of STATE and the United States shall be given access to COUNTY'S books and records for the purpose of checking costs paid or to be paid by STATE hereunder. All project documents will be available for inspection by authorized State and FHWA personnel at any time during the project development and for a 3-year period after FHWA payment of final voucher, or a 4-year period from the date of final payment under the contract, whichever is longer.

6. Upon acceptance of the completed project by the awarding authority, or upon the contractor being relieved of the duty of maintaining and protecting certain portions of the work, COUNTY shall maintain the project or such portions of the work in a manner satisfactory to STATE. If, within ninety days after receipt of notice from STATE that the project or any portion thereof is not being properly maintained, COUNTY has not remedied the conditions complained of to STATE'S satisfaction, STATE may withhold the programming of further Federal-aid secondary projects of COUNTY until the project shall have been put in a condition of maintenance satisfactory to STATE.

7. The maintenance referred to in the preceding paragraph includes not only the preservation of the general physical features of the roadway, roadside, and surfacing, but also all safety and regulatory features, devices and appurtenances built into the project, and none of said safety features, devices and appurtenances shall be removed, eliminated or decreased in effectiveness without the prior approval of STATE. Safety features to be maintained include a roadside clear of utilities and other obstructions or features which may be a hazard to a motorist who inadvertently leaves the traveled way. No utility pole, tower, or other obstruction shall be placed within the right of way without the prior approval of governing body of the jurisdiction in which the project is located and, where clearances to the traveled way are less than those prescribed by STATE, without prior approval of STATE.

ARTICLE V - Accommodation of Utilities

Utility facilities (as defined in U. S. FHWA Policy and Procedure Memorandum 30-4.1) may be accommodated on the right-of-way provided such use and occupancy of the highway right-of-way does not interfere with the free and safe flow of traffic or otherwise impair the highway or its scenic appearance; and provided a Use and Occupancy Agreement, setting forth the terms under which the utility facility is to cross or otherwise occupy the highway right-of-way, is executed by the COUNTY and OWNER. The Use and Occupancy agreement setting forth the terms which under the utility facility is to cross or otherwise occupy the highway right-of-way must include the provisions set forth in Section F-11.04 of the LOCAL ASSISTANCE MANUAL published by the STATE, unless otherwise approved by the STATE.

ARTICLE VI - Condition of Acceptance

As a condition of acceptance of the Federal-aid, State Matching, and/or Exchange monies provided for this project, COUNTY will abide by the Federal and State policies and procedures pertaining to the Local Federal-aid Secondary Program.

IN WITNESS WHEREOF, the parties have executed this agreement by their duly authorized officers.

PRELIMINARY STATEMENT
ESTABLISHMENT OF THE PLAN
AMENDMENTS

The International City Management Association Retirement Corporation, hereinafter the Retirement Corporation or ICMA-RC, is a nonprofit Delaware Corporation. It has been classified as a tax-exempt organization under the provisions of Section 501(c)(3) of the Internal Revenue Code. As an aid in the improvement of state and municipal administration in general, the Retirement Corporation is organized for the purpose of receiving and investing deferred compensation funds of state and local governments and their related and controlled public interest organizations which are tax exempt under Section 501 of the Internal Revenue Code, hereinafter referred to as "Employers", to act as trustee and/or agent for the collection and reinvestment of the income therefrom; and to act as agent for such Employers and at their explicit direction for the distribution of the funds and assets of their accounts to their participating Employees in accordance with options provided in this International City Management Association Retirement Corporation Deferred Compensation Plan, hereinafter referred to as the "Plan", or the "ICMA-RC Plan".

The ICMA-RC Plan is set out below in two parts: I. The Deferred Compensation Employment Agreement; and II. The Master Trust Agreement. As set out below, the Employer adopts this plan as its agreement with the participating Employees and ICMA-RC, and the Employees shall participate in the Plan through the execution of a Joinder Agreement, which by its terms incorporates all of the provisions of the Plan. A copy of the Plan shall be supplied to each Employee for his study and understanding prior to his execution of the Joinder Agreement. The Employers, through their participation in the Plan, express their desire to have the benefit of the continued loyalty, service and counsel of their Employees and to assist them in providing for the contingencies of old age dependency, disability, and death.

This Plan may be amended from time to time for purposes of assuring its conformance to the requirements of any applicable law or rule or regulation pursuant thereto, and to preserve the tax-exempt status of the Plan and the Retirement Corporation. No amendment may either directly or indirectly operate to deprive any participating Employer of its beneficial interest in the Trust as it is then constituted. The Retirement Corporation will notify the participating Employers of any amendment to this Plan no later than sixty days prior to its effective date. Any such amendment will become effective after the expiration of that period of time, except to those Employers as may file an objection. No amendment proposed by participating Employers shall be effective unless agreed to by the ICMA Retirement Corporation over the signature of an Officer.

PART I. DEFERRED COMPENSATION EMPLOYMENT AGREEMENT

1. Deferred Compensation—Initial Decision—Future Changes

1.1 There is no limit on the amount or percentage of the total compensation of the Employee which may be deferred by the Employer under this Plan.

1.2 For the purpose of this Plan the following definitions apply:

a. "Total compensation" is the total of compensation to be paid by the Employer for the services of the Employee, regardless of the terms used for its components, as, for example, "base pay," "in addition to base pay," "employer's contributions," etc.;

b. "Deferred compensation" is that amount or percentage of the total compensation of the Employee which the Employer currently defers from the payment to the Employee, and, instead, deposits same into a Deferred Compensation Account with the Retirement Corporation under the terms of this Plan. Deferred compensation may include amounts from or percentages of both "base pay" and "employers contributions" or it may include amounts from or percentages of only one of these components;

c. "Current compensation" is that portion of the Employee's total compensation which is not deferred compensation as deferred compensation is defined herein; and

d. "Base pay" is the stated salary of the Employee.

1.3 The determination of the initial amount or percentage and of any future change in amount or percentage of deferred compensation must be made before the beginning of the period of service for which the compensation is payable.

1.4 The amount of total compensation may be adjusted from time to time without altering the terms of this Plan. However, the percentage or amount of deferred compensation may be adjusted in accordance with 1.3 above. Any such adjustment of the percentage or amount of deferred compensation shall be communicated to the Employer's agent, the Retirement Corporation, and the deposits in the adjusted percentages or amounts, if changed from the prior existing percentages or amounts, shall thereafter be made by the Employer into its Retirement Corporation Account.

2. Deferred Compensation Account. Under this Plan, deferred compensation shall be credited and paid into the Trust established and maintained with the International City Management Association Retirement Corporation as Trustee. The Retirement Corporation is a nonprofit corporation formed for the specific purpose of investing and otherwise administering the funds of said Trust. The Trust may be revoked at any time by the Employer, and upon revocation of said Trust, all of the assets thereof shall return to and revert to the Employer. The Employer shall keep accurate books and records with respect to the Employee's total compensation or other earned income and with respect to amounts paid into said Trust.

3. Ownership of Funds. Neither the Employee nor any beneficiary thereof shall have any interest whatsoever in the funds paid into the Deferred Compensation Account or in the accumulations or any increments on such funds, which shall at all times remain as an asset of the Employer, subject to its absolute dominion, control, and right of withdrawal until such time as the funds or assets of the Account are are distributed to the Employee in accordance with the provisions of this Plan. The obligations of the Employer to pay deferred compensation is contractual only, the Employee having no preferred or special interest or claim, by way of trust, annuity, or otherwise, in and to the specific funds and assets held in the Deferred Compensation Account. The contractual obligations of the Employer to pay the funds and assets in its Deferred Compensation Account to the Employee or his beneficiary on the applicable distribution date shall be a continuing obligation upon the Employer, and shall not be relieved by any agreement between the Employer and any other party, except as provided in Section 2 of Paragraph 12 of this Plan, and shall not be affected in any manner by amendment or revocation of the Trust referred to in Pargraph 2 herein or by reversion of the Trust Funds to the Employer. The provisions of this Paragraph shall supersede and control any other provision of this Plan which could be interpreted to be in conflict therewith.

4. Administration of Funds. The funds deposited in the Deferred Compensation Account shall be invested and reinvested by the Retirement Corporation, as provided for in the Trust Fund described in Part II of this Plan, in any manner which in its sole discretion it deems desirable, without regard at any time to any legal limitation governing the investment of such funds. The Account shall also reflect the gain or loss resulting from the investment and reinvestment thereof. This Trust Fund may be commingled with others established by the Trustee with other Employers under this Plan.

5. Designation of Investments. Each participating Employer, being advised of the preferences of, and for the benefit of each of its participating Employees, shall designate the percentage of the deferred compensation involved which shall be invested in the respective types of investment funds (accounts) of the Retirement Corporation, such as the Equity (Variable) Fund or the Fixed-Income Fund, unless the laws of the applicable state or local government require otherwise, in which case those laws shall govern. Future elections to change the percentage to be invested in each type of Fund may only be made prior to and for the next succeeding annual period of service for which the compensation is payable by filing written notice thereof with the Retirement Corporation. Such notice will not be effective until received by the Retirement Corporation.

6. Payment of Deferred Compensation. The words "designated age", as used in this Paragraph and in Paragraph 9 of this Plan, shall mean the designated age which appears in the Joinder Agreement executed by the participating Employee. These words, as used in this Paragraph, in Paragraph 9, and in the Joinder Agreement, shall also include the following, without repetition therein: "or later, in the sole discretion of the Employer, at the end of his employment agreement, if Employee continues in the employ of the Employer after he attains the designated age." At such time as the Employee reaches the designated age, becomes permanently disabled, or dies, whichever occurs first, he, or his beneficiary or beneficiaries, nominee or estate is/are entitled to receive payment in the Deferred Compensation Account outstanding on the date on which one of the foregoing occurs. Payments occasioned by the Employee having reached the designated age, becoming permanently disabled, or by his death shall be made in accordance with the provisions of Paragraph 7 hereof as follows:

a. Payments in monthly, quarterly, semi-annual, or annual payments over the period of life expectancy of the Employee in accordance with the following procedure:

Upon reaching the designated age, or becoming permanently disabled from permanent full-time employment, whichever first occurs, the Employee's life expectancy shall be determined by reference to Standard U.S. Mortality Tables; the amounts of assets and accumulations in the Deferred Compensation Account shall be computed together with a reasonable rate of return on said assets, less the amount of expected monthly distribution, over the life expectancy of the Employee; and a monthly amount shall then be mathematically determined, the payment of which, in equal monthly installments over the period of the life expectancy of the Employee, shall completely deplete the said Account at the end of the last year of life expectancy; or

b. Payments in monthly, quarterly, semi-annual, or annual payments in accordance with the following procedure:

Unless the Employee's employment terminates prior to the time he attains the designated age, amounts equal to the benefits received by the Employer, under retirement annuity policies, shall be paid to the Employee, at such time as he attains the designated age; or, in the case of death, payment to his beneficiary or beneficiaries, nominee or estate pursuant to the procedures provided in said policies and Paragraphs 7 and 8 of this Plan; or

c. Payments in monthly, quarterly, semi-annual, or annual installments over a period of not exceeding ten (10) years, said payments to include a reasonable return on the funds, assets and accumulations in the Deferred Compensation Account, less the amount of expected monthly, quarterly, semi-annual, or annual distribution, over the said ten (10) year period; or

d. One lump sum payment.

7. Selection of Method of Payment. The method of payment shall be selected by the Employer, acting through the Retirement Corporation as its duly authorized agent, due consideration being given to health, financial circumstances and family obligations of the Employee. In this regard, the Employee may be consulted; however, he shall have no voice in the decision reached.

8. Payments in the Event of Death.

a. During the Period of Distribution. In the event of the Employee's death during the period of distribution, the Employee's beneficiary shall be entitled to receive payments in accordance with the payment method being employed at the time of the Employee's death. With the consent of the Employer, acting through the Retirement Corporation as its duly authorized agent, said beneficiary may elect to receive a lump-sum in lieu of installment payments.

b. Prior to Distribution. In the event of the death of the Employee prior to the distribution, the funds and assets of the Deferred Compensation Account shall be paid in accordance with one of the methods described in subparagraphs a, b, c, or d of Paragraph 6 hereof. The selection of said method shall be made by the Employer acting through the Retirement Corporation as its duly authorized agent.

9. Payment Dates. Payments shall commence on the first day of the month, following the attainment of the designated age, or later, on the first day of the month after the end of his employment agreement, if Employee continues in the employ of the Employer after he attains the designated age, or likewise following permanent disability, or death; and, in the case of installment payments, shall be made continuously thereafter on the first day of each succeeding month, or, in the event quarterly, semi-annual, or annual payment installment periods are applied, then continuously thereafter on the first day of each succeeding month which begins the time period (quarterly, etc.) involved until such time as the Deferred Compensation Account is depleted in its entirety.

10. Disbursing Agent. The Retirement Corporation shall act as agent of the Employer for purposes of disbursing payments. The ultimate obligation for making such payments, however, shall remain with the Employer.

11. Accumulation During the Distribution Period. During the period of distribution, the Employee or his beneficiary or beneficiaries, nominee or estate, as the case may be, shall continue to be credited with all the interest, accumulations, and increments on the undistributed funds and assets in the Deferred Compensation Account, until such Account is depleted in its entirety.

12. Section 1. Termination of Employment. Upon termination of the Employee's services, for any reason other than death, the funds, assets, and accumulations in the Deferred Compensation Account shall not be transferred to an account with a new employer of the Employee, and, instead, they shall remain in the original Account as assets of the old Employer until such time as they are distributed in accordance with the provisions of this Plan, except as provided in Section 2 of this Paragraph.

Section 2. Transfer of Employment with Consideration Between Employers--Tripartite Agreement.

In the event the Employee accepts employment with a new employer participating in the ICMA-RC Deferred Compensation Plan, then, if the past Employer finds that it has no present or future need of the funds, assets, and accumulations in the said Account for the payment of its general creditors or for any other purpose whatsoever, in consideration of its desire to avoid the continuing expense of maintaining records, and receiving, examining, verifying and filing annual reports of the Retirement Corporation, and in consideration of avoiding the possible future expeses of litigation of Employee's continuing contractual rights to payment of deferred compensation on his retirement as herein provided in the event of any possible future revocation and withdrawal by the past Employer of the funds, assets, and accumulations in the said Account, the past

Employer may, at its discretion, authorize the Retirement Corporation, as its agent, to propose to the new Employer that the funds, assets, and accumulations of the said Account be transferred to the ownership, control, and right of withdrawal of the new Employer, and to do so in the event the new Employer, in consideration of the increased value of the Employee's services by reason of the experience gained while in past employment, agrees to accept same, and the respective Employers and the Employee sign an appropriate form of Agreement in which the new Employer also agrees to assume the continuing contractual liability to pay deferred compensation so transferred upon retirement of the Employee and the Employee releases the past Employer from said continuing obligation to do same.

13. Losses. The Employer shall not be responsible for any loss due to investment or failure of investment of funds and assets in said Deferred Compensation Account nor shall the Employer be required to replace any loss whatsoever which may result from said investments.

14. Nonassignability of Deferred Compensation. The Employee during his lifetime shall not be entitled to commute, encumber, sell or otherwise dispose of his rights to receive deferred compensation payments provided for herein, and the right thereto shall be nonassignable and nontransferable. In the event of any attempted assignment or transfer thereof, the Employer shall have no further liability under this Agreement.

15. Participation in other Employee Benefit Plans. Nothing herein contained shall in any manner modify, impair, or affect the existing or future rights or shall in any manner modify, impair, or affect the existing or future rights or interest of the Employee (a) to receive any employee benefits to which he would otherwise be entitled, or (b) as a participant in any future pension plan, it being understood that the rights and interests of the Employee to any employee benefits or as a participant or beneficiary in or under any or all such plans respectively shall continue in full force and effect unimpaired, and the Employee shall have the right at any time hereafter to become a beneficiary under or pursuant to any and all such plans.

16. Definitions. The meaning of any term or terms, phrase, clause, or sentence used in this Agreement, which is also used in the By-Laws of the Retirement Corporation, shall be defined as these are defined in ARTICLE II, Section 2 of the By-Laws. Masculine pronouns, whenever used herein, include the feminine pronouns, and the singular includes the plural unless the context requires another meaning.

17. Validity of Agreement. This Agreement shall not be valid or enforceable unless signed by an officer of Employer, authorized, by the governing body of the Employer, as, for example, the City Council, and unless this Agreement is implemented by the execution of the Joinder Agreement.

PART II. MASTER TRUST AGREEMENT

AGREEMENT made by and between the aforenamed Employer and the International City Management Association Retirement Corporation (hereinafter the "Trustee" or "Retirement Corporation"), a nonprofit corporation organized and existing under the laws of the State of Delaware, for the purpose of investing and otherwise administering the funds set aside by Employers in connection with Deferred Compensation Agreements with Employees.

WHEREAS, The Employer desires to enter into agreements with its Employees whereby its Employees agree to defer payments of specified percentages of or amounts from their total compensation as "deferred compensation" is defined in said agreements until the occurence of certain events;

WHEREAS, in order that there will be sufficient funds available to discharge the foregoing contractual obligations, the Employer desires to set aside periodic amounts equal to the percentage or amount of total periodic compensation deferred;

WHEREAS, the funds set aside, together with any and all investments thereto, are to be exclusively within the dominion, control, and ownership of the Employer, and subject to the Employer's absolute right of withdrawal, the Employee having no interest whatsoever therein;

NOW, THEREFORE, this Agreement witnesseth that (a) the Employer will pay monies to the Trustee to be placed in deferred compensation accounts for the Employer; (b) the Trustee covenants that it will hold said sums, and any other funds which it may receive hereunder, in trust for the uses and purposes and upon the terms and conditions hereinafter stated; and (c) the parties hereto agree as follows.

ARTICLE 1. General Duties of the Parties.

Section 1.1 General Duty of the Employer. The Employer shall make regular periodic payments equal to the percentages of or amounts from its participating Employees' total periodic compensations which are deferred in accordance with the terms and conditions of Deferred Compensation Employment Agreements with such Employees, or with any subsequent modification thereof.

Section 1.2. General Duties of the Trustee. The Trustee shall hold all funds received by it hereunder, which, together with the income therefrom, shall constitute the Trust Funds. It shall administer the Trust Funds, collect the income thereof, and make payments therefrom, all as hereinafter provided. The Trustee shall also hold all Trust Funds which are transferred to it as successor Trustee by the Employer from existing deferred compensation arrangements with its Employees which meet the same Internal Revenue Code requirements which govern the ICMA-RC Deferred Compensation Plan. Such Trust Funds shall be subject to all of the terms and provisions of this Agreement.

ARTICLE II. Powers and Duties of the Trustee in Investment, Administration, and Disbursement of the Trust Fund.

Section 2.1 Investment Powers and Duties of the Trustee. The Trustee shall have the power in its discretion to invest and reinvest the principal and income of the Trust Fund and keep the Trust Fund invested, without distinction between principal and income, in such securities or in other property, real or personal, wherever situated, as the Trustee shall deem advisable, including, but not limited to, stocks, common or preferred, bonds, retirement annuity and insurance policies, mortgages, and other evidences of indebtedness or ownership, and in common trust funds of approved financial or investment institutions, with such institutions acting as Trustee of such common trust funds, or separate and different types of funds (accounts) including equity, fixed-income, and those which fulfill requirements of state and local governmental laws, established with such approved financial or investment institutions. For these purposes, this Trust Fund may be commingled with others established by the Trustee under this form of agreement with other Employers. In making such investments, the Trustee shall not be subject at any time to any legal limitation governing the investment of such funds. Investment powers and investment discretion vested in the Trustee by this Section may be delegated by the Trustee to any bank, insurance or trust company, or any investment advisor, manager or agent selected by it.

Section 2.2. Administrative Powers of the Trustee. The Trustee shall have the power in its discretion:

(a) To purchase, or subscribe for, any securities or other property and to retain the same in trust.

(b) To sell, exchange, convey, transfer or otherwise dispose of any securities or other property held by it, by private contract, or at public auction. No person dealing with the Trustee shall be bound to see the application of the purchase

money or to inquire into the validity, expediency, or propriety of any such sale or other disposition.

(c) To vote upon any stocks, bonds, or other securities; to give general or special proxies or powers of attorney with or without power of substitution; to exercise any conversion privileges, subscription rights, or other options, and to make any payments incidental thereto; to oppose, or to consent to, or otherwise participate in, corporate reorganizations or other changes affecting corporate securities, and to delegate discretionary powers, and to pay any assessments or charges in connection therewith; and generally to exercise any of the powers of an owner with respect to stocks, bonds, securities or other property held as part of the Trust Funds.

(d) To cause any securities or other property held as part of the Trust Funds to be registered in its own name, and to hold any investments in bearer form, but the books and records of the Trustee shall at all times show that all such investments are a part of the Trust Funds.

(e) To borrow or raise money for the purpose of the Trust in such amount, and upon such terms and conditions, as the Trustee shall deem advisable; and, for any sum so borrowed, to issue its promissory note as Trustee, and to secure the repayment thereof by pledging all, or any part, of the Trust Funds. No person lending money to the Trustee shall be bound to see the application of the money lent or to inquire into its validity, expediency or propriety of any such borrowing.

(f) To keep such portion of the Trust Funds in cash or cash balances as the Trustee, from time to time, may deem to be in the best interests of the Trust created hereby, without liability for interest thereon.

(g) To accept and retain for such time as it may deem advisable any securities or other property received or acquired by it as Trustee hereunder, whether or not such securities or other property would normally be purchased as investments hereunder.

(h) To make, execute, acknowledge, and deliver any and all documents of transfer and conveyance and any and all other instruments that may be necessary or appropriate to carry out the powers herein granted.

(i) To settle, compromise, or submit to arbitration any claims, debts, or damages due or owing to or from the Trust Funds; to commence or defend suits or legal or administrative proceedings; and to represent the Trust Funds in all suits and legal and administrative proceedings.

(j) To do all such acts, take all such proceedings, and exercise all such rights and privileges, although not specifically mentioned herein, as the Trustee may deem necessary to administer the Trust Funds and to carry out the purposes of this Trust.

Section 2.3. Distributions from the Trust Funds. The Employer hereby appoints the Trustee as its agent for purposes of selecting the method by which distributions from the Trust Funds are to be made, as well as for purposes of making such distributions. In this regard the terms and conditions set forth in the Agreements to be executed between the Employer and its Employees, and any subsequent modifications thereof, are to guide and control the Trustee's power.

Section 2.4. Valuation of Trust Funds. At least once a year as of Valuation Dates designated by the Trustees, the Trustee shall determine the value of the Trust Funds. Assets of the Trust Funds shall be valued at their market values at the close of business on the Valuation Date, or, in the absence of readily ascertainable market values as the Trustee shall determine, in accordance with methods consistently followed and uniformly applied.

ARTICLE III. For Protection of Trustee.

Section 3.1. Evidence of Action by Employer. The Trustee may rely upon any certificate, notice or direction purporting to have been signed on behalf of the Employer which the Trustee believes to have been signed by a duly designated official of the Employer. No communication shall be binding upon any of the Trust Funds or Trustee until they are received by the Trustee.

Section 3.2. Advice of Counsel. The Trustee may consult with any legal counsel with respect to the construction of this Agreement, its duties hereunder, or any act, which it proposes to take or omit, and shall not be liable for any action taken or omitted in good faith pursuant to such advice.

Section 3.3. Miscellaneous. The Trustee shall use ordinary care and reasonable diligence, but shall not be liable for any mistake of judgment or other action taken in good faith. The Trustee shall not be liable for any loss sustained by the Trust Funds by reason of any investment made in good faith and in accordance with the provisions of this Agreement.

The Trustee's duties and obligations shall be limited to those expressly imposed upon it by this agreement, notwithstanding any reference of the Plan.

ARTICLE IV. Taxes, Expenses and Compensation of Trustee.

Section 4.1 Taxes. The Trustee shall deduct from and charge against the Trust Funds any taxes on the Trust Funds or the income thereof or which the Trustee is required to pay with respect to the interest of any person therein.

Section 4.2. Expenses. The Trustee shall deduct from any charge against the Trust funds all reasonable expenses incurred by the Trustee in the administration of the Trust Funds, including counsel, agency and other necessary fees.

ARTICLE V. Settlement of Accounts. The trustee shall keep accurate and detailed accounts of all investments, receipts, disbursements, and other transactions hereunder.

Within 90 days after the close of each fiscal year, the Trustee shall render in duplicate to the Employer an account of its acts and transactions as Trustee hereunder. If any part of the Trust Fund shall be invested through the medium of any common, collective or commingled Trust Funds, the last annual report of such Trust Funds shall be submitted with and incorporated in the account.

If within 90 days after the mailing of the account or any amended account the Employer has not filed with the Trustee notice of any objection to any act or transaction of the Trustee, the account or amended account shall become an account stated. If any objection has been filed, and if the Employer is satisfied that it should be withdrawn or if the account is adjusted to the Employer's satisfaction, the Employer shall in writing filed with the Trustee signify approval of the account and it shall become an account stated.

When an account becomes an account stated, such account shall be finally settled, and the Trustee shall be completely discharged and released, as if such account had been settled and allowed by a judgment or decree of a court of competent jurisdiction in an action or proceeding in which the Trustee and the Employer were parties.

The Trustee shall have the right to apply at any time to a court of competent jurisdiction for the judicial settlement of its account.

ARTICLE VI. Resignation and Removal of Trustee.

Section 6.1. Resignation of Trustee. The Trustee may resign at any time by filing with the Employer its written resignation. Such resignation shall take effect 60 days from the date of such filing and upon appointment of a successor pursuant to Section 6.3, whichever shall first occur.

Section 6.2. Removal of Trustee. The Employer may remove the Trustee at any time by delivering to the Trustee a written notice

of its removal and an appointment of a successor pursuant to Section 6.3. Such removal shall not take effect prior to 60 days from such delivery unless the Trustee agrees to an earlier effective date.

Section 6.3. Appointment of Successor Trustee. The appointment of a successor to the Trustee shall take effect upon the delivery to the Trustee (a) an instrument in writing executed by the Employer appointing such successor, and exonerating such successor from liability for the acts and omissions of its predecessor, and (b) an acceptance in writing, executed by such successor.

All of the provisions set forth herein with respect to the Trustee shall relate to each successor with the same force and effect as if such successor had been originally named as Trustee hereunder.

If a successor is not appointed within 60 days after the Trustee gives notice of its resignation pursuant to Section 6.1, the Trustee may apply to any court of competent jurisdiction for appointment of a successor.

Section 6.4 Transfer of Funds to Successor. Upon the resignation or removal of the Trustee and appointment of a successor, and after the final account of the Trustee has been properly settled, the Trustee shall transfer and deliver any of the Trust Funds involved to such successor.

ARTICLE VII. Duration and Revocation of Trust Agreement.

Section 7.1. Duration and Revocation. This Trust shall continue for such time as may be necessary to accomplish the purpose for which it was created but may be terminated or revoked at any time by the Employer as it relates to any and/or all related participating Employees. Written notice of such termination or revocation shall be given to the Trustee by the Employer. Upon termination or revocation of this Trust, all of the assets thereof shall return to and revert to the Employer. Termination of this Trust shall not, however, relieve the Employer of the Employer's continuing obligation to pay deferred compensation upon the applicable distribution date to any and/or each Employee with whom the Employer has entered into a Deferred Compensation Employment Agreement.

Section 7.2. Amendment. The Employer shall have the right to amend this Agreement in whole and in part but only with the Trustee's written consent. Any such amendment shall become effective upon (a) delivery to the Trustee of a written instrument of amendment, and (b) the endorsement by the Trustee on such instrument of its consent thereto.

ARTICLE VIII. Miscellaneous.

Section 8.1. Laws of the State of Delaware to Govern. This agreement and the Trust hereby created shall be construed and regulated by the laws of the State of Delaware.

Section 8.2. Successor Employers. The term "Employer" shall include any person who succeeds the Employer and who adopts the Deferred Compensation Plan of the Retirement Corporation and becomes a party to this agreement with the consent of the Trustee.

Section 8.3. Withdrawals. The Employer may, at any time, and from time to time, withdraw a portion or all of the Trust Funds created by this Agreement and related Deferred Compensation Employment Agreements.

Section 8.4. Definitions. Definitions in the By-Laws of terms, phrases, etc., used herein apply to the same herein. The masculine includes the feminine and the singular includes the plural unless the context requires another meaning.

WHEREAS, General Revenue Sharing is a vital and invaluable program in California counties; and

WHEREAS, the General Revenue Sharing program supports local determination and good government practices; and

WHEREAS General Revenue Sharing will expire in December 1976 unless reenacted by Congress; and

WHEREAS, California counties will adopt their fiscal year 1976-77 budgets by July of next year and must know at that time whether revenue sharing will continue beyond 1976; and

COUNTY OF YOLO

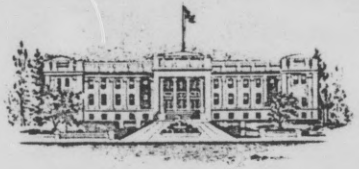
STATE OF CALIFORNIA

REVENUE SHARING REPORT

1972 - 1976

October 1975



BOARD OF SUPERVISORS

COUNTY OF YOLO

Woodland, California

November 10, 1975

To the Honorable Members of Congress
United States of America

This is a Revenue Sharing Report of the Board of Supervisors of Yolo County, State of California, on Revenue Sharing allocations through 1975-76. Yolo County has received $5,201,466 and has obligated $5,201,465. Revenue Sharing funds have only been obligated after all public service organizations in the County have been invited to make application and given an opportunity to present their requests for consideration in public hearings in accordance with the Federal Legislation.

This report contains a detailed itemization and explanation of all obligations and includes three summary tables:

Table I Comparison of Revenue Sharing Income to Obligations and Expenditures

Table II Summary of Revenue Sharing Obligations and Expenditures (by category)

Table III Distribution of Funds Between the County and Community Agencies

This report is divided into four parts for each of the four years. Each part contains a detailed explanation of the agency receiving the funds and the purpose for which such funds were allocated.

We have expended Revenue Sharing Funds for purposes which could not have been financed through regular sources of revenue available to the County. The California Legislature has frozen tax rates of local government in California, and it is virtually impossible to obtain voter approval for capital improvement bond issues. Of the $5,201,000 of Revenue Sharing funds used to date, 48% or $2,499,000 was used for the development of a Centralized County Landfill of benefit to all of our County citizens. This project was necessary to comply with federal and state environmental standards. We have substantially strengthened health and social services to the aged and poor, principally by using private social service agencies. We cannot continue to do this without Revenue Sharing funds.

Yolo County is grateful to the Federal Government for Revenue Sharing assistance and sincerely believes that continuation of Revenue Sharing will be of benefit not only to Yolo County citizens, in maintaining improved governmental services otherwise not able to be financed, but also to the major metropolitan areas and to the respective state and local governments of our nation.

Respectfully submitted,

Betsy A. Marchand

BETSY A. MARCHAND, Chairman
Yolo County Board of Supervisors

EXHIBIT A

THE COUNTY OF YOLO
DEFERRED COMPENSATION PLAN

1. Name - The name of this Plan is "The County of Yolo Deferred Compensation Plan": (hereinafter referred to as the "Plan").

2. Purpose - The primary purpose of the Plan is to permit regular County Employees to defer some part of their annual compensation which will be used to purchase annuities or other assets to provide to that employee a supplementary income at the time he retires from County Goverment.

3. Definitions - For the purposes of this Plan, certain words and phrases used herein will have the following meanings:

(a) "Salary" shall mean regular basic compensation for services as an employee on a permanent basis (other than a retirement benefit, retainer or payment for temporary employment) but shall not, except as otherwise determined by the County include any overtime, or special payments.

(b) "Deferred salary" shall mean the amount of an employee's salary not yet earned, which the employee and County mutually agree shall be deferred in accordance with the provisions of this Plan.

(c) "Retirement" shall mean withdrawal from active service with a retirement allowance granted under the provisions of the various pension ordinances governing the County Retirement Systems (P.E.R.S.).

(d) "Termination" shall mean the severance of employment with the County prior to retirement.

(e) "County" shall mean the County of Yolo.

(f) "Employees" shall mean all employees of the County designated in Board of Supervisor's Minute Order No. 74-1367 adopted October 28, 1974, and as may be amended from time to time.

(g) "Participant" shall mean any Employee who agrees to participate in this Plan.

4. Administration - This Plan shall be administered by the County. The Board of Supervisors shall have full power and authority to adopt rules and regulations for the administration of the Plan, and to interpret, alter, amend and revoke any rules and regulations so adopted after consultation

with the Yolo County Management Association. All decisions concerning withdrawal, payment, method of payment, investment of funds, etc., shall be solely the responsibility of the Board of Supervisors acting for the County. Employees shall be entitled to make decisions solely with respect to his or her own participation. The costs of administration of the Plan shall be borne by the participants and not by the County.

5. Participation in the Plan -

(a) Eligibility - All Employees not more than 65 years of age on initial enrollment are eligible to participate in this Plan. Employees who are eligible to participate in Tax Sheltered Annuity Plans established by the County are ineligible to participate in this Plan.

(b) Enrollment in the Plan

(1) An eligible person, with respect to participation commencing in the initial year of the Plan, may become a Participant prior to or within a reasonable time after the Plan becomes effective by agreeing to defer compensation not yet earned. Thereafter, a new Participant may agree to defer compensation not yet earned, but such agreement must be made prior to the beginning of the month in which it is to become effective.

(2) At the time of entering into an agreement hereunder to defer compensation or at the time of re-entry following a withdrawal, a participant must agree to defer a minimum of $25.00 a month.

(3) A Participant who defers compensation may not modify such agreement to change the amount deferred except with respect to compensation earned in the subsequent calendar year or except as provided in Article 9 hereof with respect to WITHDRAWAL. A decrease in or cessation of deferred compensation may be made at any time, but a subsequent increase or reinstatement may not be made until the beginning of the calendar year. The total monthly payment after reduction shall not be less than $25.00.

(4) A Participant may at any time revoke this agreement to defer compensation by notifying the Personnel Director in writing

15 days prior to the commencement of any pay period.

(5) A Participant who has withdrawn as set forth in Article 9 or revoked as set forth in (4) above may again become a Participant in any calendar year following his withdrawal or revocation by satisfying the above conditions.

6. Relationship to Other County Plans - The amount of deferred salary will not be considered as current salary. However, such amounts will be included in determining contributions, benefits, and rights under the County Retirement Plan (P.E.R.S.) and Social Security. Payments under the Deferred Compensation Plan will supplement Retirement and Death Benefits under the Retirement Plans of the County.

7. Benefits Under Plan -

(a) The Plan provides for alternative types of payment, as follows:

(1) Deferred Compensation payments, payable on the happening of any of the following events;

(i) Retirement of a Participant

(ii) Termination of a Participant

(2) Death benefits, payable when a Participant dies before Deferred Compensation payments start.

(b) The County and the employee will execute an agreement in writing, confirming their assumptions of the obligations set forth in this Plan and the amounts of Deferred Compensation payments and death benefits payable on account of salary so deferred.

The factors in determining the amounts of Deferred Compensation payments and death benefits are the amount of deferred salary, the participant's age at the time salary is deferred (if an annuity or some other form of insurance is chosen as the investment medium) and the Participant's age at the time of his termination, retirement or death. If an insurance or annuity form of investment is used, the Deferred Compensation payments and the death benefits (if paid in other than a lump sum) may be fixed or fluctuating amount equal to the amount which would have been payable under a variable and/or fixed annuity contract with respect to the

Participant or Beneficiary for which such payments are being determined, had such a contract been purchased from an approved insurance company and such Participant been included therein with an annual premium equal to the annual amount of Compensation that had been deferred and had the method of payment selected been a variable and/or fixed annuity payable for 120 months certain and life thereafter and had the annuitant thereunder been the same age as the Participant.. In the event, other forms of assets are acquired by the deferred amounts the basis on which deferred payments are calculated shall be the net asset value of the accounts at the time deferred compensation payments begin. It is the intent of this Plan that the Deferred Compensation payable shall not be limited to a return of contributions only but shall also include net income earned, if any.

(c) (1) Subject to the provisions thereof, the County agrees to pay Deferred Compensation payments, as follows:

(i) In the event of an early, normal, postponed retirement, or disability to the Participant so qualifying, for 120 consecutive months and for his remaining lifetime thereafter, commencing the first day of the month following such retirement;

(ii) In case of termination, to the Participant so qualifying, for 120 consecutive months, commencing the first day of the month following such termination, provided, however, the County may in its sole discretion postpone such payments until the terminated Participant reaches his 55th birthday or make payment in a lump sum.

(2) Subject to the provisions hereof, the County agrees to pay death benefits to the Participant's designated beneficiary, or the Participant's estate, for 120 consecutive months, commencing on the first day of the month following the Participant's death provided; however, in the sole discretion of the County such payment may be in a lump sum, or installments over some period other than 10 years including an adjusted amount of payments for

the life of the beneficiary with a refund, or guaranteed period of payments.

(3) If a Participant has qualified to receive Deferred Compensation payments and such Participant dies before receipt of all 120 monthly payments, the County agrees to continue to pay such monthly payments for the balance of the 120 month period to the Participant's designated beneficiary or the Participant's estate.

(4) A Participant may designate one or more beneficiaries, and may name contingent beneficiaries to whom the benefits will be payable upon death of any designated beneficiary. The Participant will also have the right to change his designation of beneficiaries.

(5) In the event that a Participant's beneficiary dies before all monthly benefit payments become payable to such beneficiaries, then the commuted value (at rate of interest decided upon by the County) of such monthly benefits will be paid by the County to the estate of the last surviving beneficiary.

(6) The County may determine, in their sole discretion at least 30 days prior to the Participant's retirement, in lieu of Deferred Compensation provided in (c) (1) to pay an actuarial equivalent series of payments on any one of the following options:

(a) A refund basis;

(b) Payments for 180 consecutive months and life thereafter; or

(c) Payments for his lifetime and thereafter during any remaining lifetime of designated second person.

In the event such an irrevocable election is made, the benefit provided in (c) (3) will be appropriately modified to provide for payments in the case of (a) above, the refund amount in a lump sum, (b) above, for the balance of the 180 month period, and (c) above, for the balance of the designated second person.

In addition, the County may determine in their sole discretion at least 30 days prior to the Participant's retirement in lieu of

fluctuating payments, payments of a fixed amount or a combination of fixed and fluctuating payments.

(7) When the County becomes obligated to make payments as above, the necessary funds will be appropriated from time to time to the General Fund.

8. Rights of Participant - The rights of the Participant created by the Plan shall be that of a general creditor of the County only and then solely to the extent of the amount of Deferred Compensation credited to the Participant's account. It is also understood that the Plan in no way abrogates the County's or the employee's rights to terminate employment at any time, with or without cause.

9. Withdrawal - For serious financial reasons, a Participant may apply for withdrawal from the Plan prior to retirement or termination of the Participant's employment with the County. If such application for withdrawal is approved by the County, the withdrawal will be effective at date of employee's request, and the County agrees to pay the Participant the amount of money determined as if the Participant had terminated his employment, in (a) five substantially equal annual installments, (b) a lump sum, or (c) postpone such payments until the Participant terminates, dies or retires, in which event the method of payment will be as permitted by Article 7 (c) (1) or (2) as applicable, such method (a), (b), or (c) to be in the sole discretion of the County. Following withdrawal the Participant's deferred salary will be thereupon restored. Serious financial reasons shall include the following: unexpected and unreimbursed major expenses resulting from illness to person or accident to person or property and other types of unexpected and unreimbursed expenses of a major nature that would not normally be budgetable. Withdrawals for foreseeable expenditures normally budgetable such as down payments on a home or purchase of an auto or college expenses will not be permitted.

10. Leave of Absence -

(a) If a Participant is on an approved leave of absence from the County with salary, or on an approved leave of absence without salary for a period of not more than six months, his participation in this Plan

will continue.

(b) If a Participant is on an approved leave of absence without salary and such leave of absence continues for more than six months, then Participant will be deemed to have withdrawn from the Plan as of the end of such six month period. The County agrees to pay such withdrawn Participant the amount of money determined as if the Participant had terminated his employment, said payment to be made as provided in Article 9 thereof.

11. Amendment or Termination of Plan - The Board of Supervisors may at any time terminate this Plan. Upon such termination, the Participants in the Plan will be deemed to have withdrawn from the Plan as of the date of such termination, Participant's deferred salary will be thereupon restored, and the County in its sole discretion agrees to pay such Participants the amount of money determined as if the Participant had terminated his employment, (a) said payment to be made in five substantially equal installments, commencing on the effective date of such termination, or (b) postpone payments until the Participant terminates employment, dies, or retires, in which event the method of payment will be as permitted by Article 7. The Board of Supervisors may also amend the provisions of this Plan after consultation with the Yolo County Management Association at any time. Notice of any amendment shall be given by the County to each employee then participating in the Plan, and such Participants may elect to withdraw from the Plan within sixty days after such notice. Upon such withdrawal, the Participants' deferred salary will be restored and the County agrees to pay such Participants the amount of money as if the Participant had terminated his employment, said payment to be made in the sole discretion of the County in any of the methods provided for in Article 7 hereof.

12. Non-Assignability Clause - It is agreed that neither Participant, nor his beneficiary nor any other designee, shall have any right to commute, sell, assign, transfer or otherwise convey the right to receive any payments hereunder which payments and right thereto are expressly declared to be

non-assignable and non-transferable; and, in the event of any attempted assignment or transfer, the County shall have no further liability hereunder; nor shall any such payments be subject to attachment, garnishment or execution, or be transferable by operation of law in event of bankruptcy, insolvency, or otherwise except to the extent as may be otherwise provided by law, notwithstanding the above clause.

13. Prohibition Against Funding - If the County shall acquire a variable and/or fixed annuity contract or any other asset in connection with the liabilities assumed by it hereunder, it is expressly understood and agreed that neither the Participant nor any beneficiary of the Participant shall have any right with respect to, or claim against, such contract or other asset, and the County shall be named the owner and beneficiary of any such contract or other asset. Such contract or other asset shall not be held under any trust for the benefit of Participant or his beneficiaries or held in any way as collateral security for the fulfilling of the obligations of the County under this Agreement. It shall be, and remain, in general, unpledged, of the County.

14. Applicable Law - This Agreement shall be construed under the laws of the State of California.

IN WITNESS WHEREOF, The Board of Supervisors of the County of Yolo, State of California, has caused this Agreement to be signed in its name by its duly authorized Officer, And duly attested by the Clerk of the Board of Supervisors on the 17th day of November, 1975.

RESOLUTION NO. 75-146

(Resolution of Application for Reorganization of WEST SACRAMENTO SANITARY DISTRICT and COUNTY SERVICE AREA NO. 5 and Formation of EAST YOLO COMMUNITY SERVICES DISTRICT)

WHEREAS, this Board of Suphrvisors has adopted by Minute Order an initial preference for the reorganization of the WEST SACRAMENTO SANITARY DISTRICT and COUNTY SERVICE AREA NO. 5 and the formation of a community services district to provide the services of the mentioned district and service area and also to provide water service to the East Yolo area; and

WHEREAS, this Board of Supervisors desires to initiate the following proposed reorganization by Resolution of Application to the Yolo County Local Agency Formation Commission;

NOW, THEREFORE, BE IT RESOLVED by the Board of Supervisors of the County of Yolo that it adopts this Resolution of Application as follows:

(a) This proposal is made pursuant to Division 1 of Title 6 of the California Government Code, the District Reorganization Act of 1965 (commencing with Section 56000).

(b) The nature of each proposed change of organization and the name or names of all districts for which any such change of organization is proposed are as follows:

dissolution of WEST SACRAMENTO SANITARY DISTRICT

dissolution of COUNTY SERVICE AREA NO. 5

formation of EAST YOLO COMMUNITY SERVICES DISTRICT.

(c) This proposal is for a reorganization and requests the formation of a new district as follows:

(1) The name of the district proposed to be formed is the EAST YOLO COMMUNITY SERVICES DISTRICT;

(2) The principal act under which the district is proposed to be formed is the Community Service District Law, Division 2 of Title 6 of the California Government Code (commencing

with Section 61000).

(3) A description of the exterior boundaries of the territory proposed to be included therein is set forth in Exhibit "A" attached hereto which is incorporated by reference as if set forth at length herein.

(d) The terms and conditions to which the proposed reorganization is desired to be subject are those terms and conditions as may be specified by Yolo County Local Agency Formation Commission in its sound discretion as to the following matters:

(1) Provision for liability for the bonded indebtedness of WEST SACRAMENTO SANITARY DISTRICT including a provision limiting the territory liable to such bonded indebtedness to that territory within the boundaries of that district or as may be added thereto pursuant to terms and conditions specified herein.

(2) Formation of an improvement district as follows:

(A) It shall consist of the territory of WEST SACRAMENTO SANITARY DISTRICT;

(B) It shall service the bonded indebtedness of the WEST SACRAMENTO SANITARY DISTRICT;

(C) It shall have the power of annexing territory in accordance with the provisions of annexation to improvement districts set forth in the Irrigation District Law, Part 7 of Division 11 of the California Water Code (commencing with Section 23600);

(3) For the acquisition of any property, real or personal, of the district and County Service Area proposed for dissolution.

(4) For the disposition of any moneys or funds (including cash on hand and moneys due but uncollected) and any other obligations of the district and county service area proposed for dissolution.

(5) For the fixing and establishment of priorities

of use or right of use in any public improvements or facilities or of any other property, real or personal, of the district and county service area proposed for dissolution.

(6) For the establishment, continuation, or termination of any board, committee, or commission of any of the functions thereof of the county service area proposed for dissolution.

(7) For the employment, transfer, or discharge of employees, the continuation, modification, or termination of existing employment contracts, Civil Service rights, seniority rights, retirement rights, and other employee benefits and rights of employees of the district and county service area proposed for dissolution.

(8) For the designation of the community service district proposed for formation as the successor to any district or county service area which shall be extinguished as a result of the reorganization for the purpose of succeeding to all of the rights, duties, and obligations of the extinguished district and county service area with respect to enforcement, performance or payment of any outstanding bonds, including revenue bonds or other contracts and obligations of said extinguished district and county service area.

(9) For the fixing of the effective date of any change of organization.

(10) For any terms and conditions authorized or required by the principal act with respect to any change of organization, including the following:

(A) The proposed community services district shall have a board of five (5) directors, all of whom shall be elected at large;

(B) The proposed community services district shall be formed for the following purposes:

(i) To supply the inhabitants of the district

with water for domestic use, irrigation, sanitation, industrial use, fire protection, and recreation.

(ii) The collection, treatment, or disposal of sewage, waste and storm waters of the district and its inhabitants.

(iii) The collection or disposal of garbage or refuse matter.

(iv) Public recreation by means of parks, including, but not limited, to aquatic parks and recreation harbors, playgrounds, golf courses, swimming pools or recreation buildings.

(C) For the establishment of one or more zones within the district for the purposes of incurring bonded indebtedness, fixing and collecting special rates or charges and taxes or lveying special taxes for the construction, maintenance, and operation of improvements or establishment or furnishing of services where the improvements and services will not be of district-wide benefit.

(11) Neither existing district nor county service area shall be dissolved unless the proposed community service district is formed.

(12) Neither existing district nor county service area shall be dissolved unless both are dissolved.

(13) The reorganization shall not become effective unless a maximum tax rate is established therefor by the voters of the territory proposed for reorganization.

(14) That the conducting agency shall not make any changes in the boundaries as approved by Yolo County Local Agency Formation Commission nor shall impose any new conditions or modify any conditions imposed by said Commission unless and until it has received approval by said Commission.

(15) Any further terms and conditions authorized or

required by the principal act with respect to the changes of organization herein proposed.

(16) For any other matters necessary or incidental to any of the foregoing.

(e) The reasons for the proposal are as follows:

(1) It will be an areawide, multi-purpose entity;

(2) It provides the most flexible organizational structure;

(3) Its formation will immediately reduce the number of special districts in East Yolo and enable the same agency for the first time to provide four major urban services on an area-wide basis;

(4) It possesses the ability to fold in additional urban services over time, providing the framework essential for orderly development, coordination, and delivery of services;

(5) It provides a Board of Directors elected by the residents of the District;

(6) It enables proper funding;

(7) A community services district is a "resident-voter" district, governed by either a 3 or 5 member board of directors. To achieve the most democratic representation possible, a 5-member Board would be desirable. The popularly elected Board will provide local control, an element of self-government apprach-ing that of a municipality's city council, and a spokesman on matters relating to the provision of East Yolo's services.

(8) In contrast to the current operations of Washington Water Company, the District's Board meetings will furnish a regular, local forum for user input.

(9) The District will constitute a user-controlled entity to negotiate with Washington Water Company concerning purchase of the company.

(10) The District will give East Yolo a locally

controlled agency, capable of providing the area park and recreation service. When Community Service Area No. 5 was established, it was the only viable approach to provide East Yolo recreation on an areawide basis. Now, the Community Services District creates an areawide multi-purpose entity which more precisely meets the requirements of the Knox-Nisbet Act and LAFCO's Standards of Evaluation.

(11) The District will minimize operating duplications which should enable operating savings. Water and Sewer are compatible functions, requiring similar types of maintenance, personnel and equipment. Water and sewer bills for a majority of the District's residents could be consolidated into one billing. The billing equipment of West Sacramento Sanitary District is now capable of simultaneously billing for both sewer and water service. Consolidation of these services under this alternative would make this equipment part of the Community Services District.

(12) The District will be a responsible local entity to make the day-to-day decisions required of a utility serving roughly 27,000 people.

(13) The District's boundaries will include Washington Water Company's service area, West Sacramento Sanitary District, County Service Area No. 5, and all of the land in East Yolo likely to develop within the next twenty years. Boundaries of this size will provide the East Yolo area an element of self-identity, reduce the need for small additions to the District, and guarantee that all of East Yolo will be served by the same water and sewer systems.

(14) The District's boundaries will allow long-range water and sewer system planning. This will enable orderly expansion of the District's water and sewer systems and serve to make these services available to undeveloped land within the District as it is urbanized. This long-range planning should produce

economic savings for the District's residents and increase the efficiency of both sewer and water service.

(15) The District's boundaries will enable long range recreation planning. Such planning is essential if East Yolo is to utilize fully its recreation resources and adequately meet its recreation needs.

(16) The District will be able to utilize "Zones" to incur bonded indebtedness, levy taxes, and collect rates or charges for the construction, maintenance, and operation of improvements and the provision of services where the improvements and services will not be of districtwide benefit. This will protect properties not receiving services from being taxed for these services or the related bonded indebtedness.

(f) Request is hereby respectfully made that proceedings be undertaken by Yolo County Local Agency Formation Commission for the reorganization proposed herein.

(g) The Clerk of this Board is hereby instructed to file a copy of this resolution with the Yolo County Local Agency Formation Commission.

c. is predominantly Class I, II, or III soils, or satisfies the purpose of the agricultural preserve in the following ways:

1) tends to maintain the agricultural economy, and

2) tends to prevent premature or unnecessary conversion from agriculture, and

3) tends to assist in the preservation of prime lands, and

4) to preserve lands with public value as open space.

5. Said Agricultural Preserves are hereby declared established or enlarged to include the territory described in said Exhibit "A", for the purpose of defining the boundaries of those areas within which the County of Yolo is willing to enter into land use contracts pursuant to the Land Conservation Act of 1965.

6. A map of such agricultural preserves is attached hereto marked Exhibit "B" which is incorporated by reference.

7. The terms and conditions upon which the County of Yolo is willing to enter into land use contracts are as follows:

FIRST: DECLARATION. This Land Use Contract is made and entered into pursuant to the California Land Conservation Act of 1965 as amended (Chapter 7 of Part 1 of Division 1 of Title 5 of the Government Code of California commencing with § 51200), hereinafter referred to as "the Act", including Article 3 of said Act entitled "Contracts" and is subject to

BOOK 1173 PAGE 36

all of the provisions thereof pertaining to contracts. It is the intent of the parties that the restrictions imposed upon the subject property by this Contract shall constitute those which may be imposed upon property by Contract under the aforementioned Act. The execution and recordation of this Contract shall in no way restrict COUNTY or OWNER from utilizing or benefiting from future conservation or agricultural legislation enacted by the California Legislature. Should COUNTY agree to any provision in any other Contract under the Land Conservation Act which provision is not included herein and OWNER requests the inclusion of such provision in this Contract such provision shall be deemed added to this Contract upon written request of OWNER to COUNTY and any other provision hereof inconsistent with said provision shall be deemed to be of no force and effect to the extent of such inconsistency.

SECOND: RESTRICTIONS. During the term of this Contract and any and all renewals thereof, the subject property shall not be used for any purpose other than agricultural use and the uses determined by COUNTY pursuant to Government Code §§ 51231 or 51238 or by the Land Conservation Act of 1965 as amended to be compatible with the agricultural use of land within this preserve and subject to contract. No structures shall be erected upon subject property except such structures as may be directly related to authorized uses of the land. The parties, through appropriate action by COUNTY'S Board of Supervisors in accordance with the Act and its rules adopted

(Rev.11-73)

BOOK 1179 PAGE 37

thereunder, and written consent of OWNER, may from time to time during the term of this Contract and renewals thereof add to and/or delete from said permissible uses of the subject property. If any use otherwise permissible hereunder is not permissible under any planning or zoning restriction now or hereafter applicable to any of the property then it shall likewise be deemed not legally available to OWNER by the provisions of this Contract, and if any use is permissible under any such planning or zoning provision but is not determined as set forth above to be compatible with the agricultural use of land within this preserve and subject to contract, then it shall not be deemed legally available to OWNER hereunder.

THIRD: EMINENT DOMAIN. When any action in eminent domain for the condemnation of the fee title of an entire parcel of land subject to a contract is filed or when such land is acquired in lieu of eminent domain for a public improvement by a public agency or a person or whenever there is any such action or acquisition by the Federal government or any person, instrumentality or agency acting under authority or power of the Federal government, such contract shall be deemed null and void as to the land actually being condemned or so acquired as of the date the action is filed, and for the purposes of establishing value of such land the contract shall be deemed never to have existed.

Whenever such an action to condemn or acquire less than all of a parcel of land subject to a contract is commenced, the contract shall be deemed

BOOK 1179 PAGE 332

null and void as to the land actually condemned or acquired and shall be disregarded in the valuation process only as to the land actually being taken, unless the remaining land subject to contract will be adversely affected by the condemnation, in which case the value of that damage shall be computed without regard to the contract.

The contract shall be null and void for all land actually taken or acquired; provided, however, that should any such action be dismissed, or should any interest be conveyed for non-public use, the contract shall be reinstated as of the date the action is dismissed or the conveyance is recorded.

FOURTH: TERM AND RENEWAL. The initial term of the Contract shall be for ten (10) years, commencing as of the first day of March next succeeding the date of approval of the Contract by the Board of Supervisors of the County of Yolo, and shall terminate on the last day of February of the tenth (10th) year thereafter. The first day of March shall be deemed to be the "anniversary date" of the Contract, and on the anniversary date of the Contract a year shall be automatically added to the term unless notice of non-renewal is given as herein provided. If either OWNER or COUNTY desires in any year not to renew the Contract, that party shall serve written notice of non-renewal of the Contract upon the other party in advance of the anniversary date. Unless such written notice is served by OWNER at least ninety (90) days prior to the anniversary date or by COUNTY at least sixty (60) days prior to renewal date, the Contract shall be considered renewed as provided

BOOK 1179 PAGE 393

above. At any time prior to the anniversary date either party may in writing withdraw its notice of non-renewal. Upon request by the OWNER, the Board of Supervisors may authorize OWNER to serve notice of non-renewal on a portion of the land under contract.

FIFTH: NO PUBLIC FUNDS. The OWNER understands that he is not entitled to any public funds by reason of the execution of the Contract or any renewal thereof although the use of the subject property is limited as aforesaid.

SIXTH: TERMINATION. Subject to the procedural conditions contained herein, OWNER may elect to terminate the Contract without penalty when one of the following circumstances is found to exist:

(a) The laws of California cease to implement Article XXVIII of the State Constitution in a manner providing benefits and restrictions substantially similar to those embodied in Article 1.5 (commencing with § 421) of Chapter 3 of Part 2 of Division 1 of the Revenue and Taxation Code. To be substantially similar, it is hereby agreed that said implementing measures must include provisions for a land valuation system basing value of the land on those uses legally available to OWNER as the basis for assessment, and must not require that OWNER permit entry of the public on subject property.

(b) Future conservation or agricultural legislation achieving a substantially similar public benefit is enacted by the California Legislature and is applied to subject property.

(c) The real property tax is abolished as a source

BOOK 1173 PAGE 410

of revenue.

The following procedures shall be followed to elect the termination of the Contract:

(a) Written notice of the election to terminate the Contract shall be given the Board of Supervisors of Yolo County by OWNER.

(b) The Board of Supervisors shall have thirty (30) calendar days to review the proposal and the information submitted in support thereof.

(c) If the Board does not act within said thirty (30) days to set a hearing within an additional thirty (30) days, it shall effect the termination by recording a notice of termination with the County Recorder and filing a copy thereof with the State Department of Agriculture. If the Board so sets a hearing, it shall give notice to OWNER and shall consider the election to terminate in the same manner as it would a request for cancellation as provided in Section SEVENTH of the Contract.

SEVENTH: CANCELIATION. The Contract may not be cancelled in whole or part except pursuant to a request by OWNER as provided herein.

(a) The Board of Supervisors of COUNTY may approve the cancellation of the Contract only if it finds that cancellation is not inconsistent with the purposes of the California Land Conservation Act and is in the public interest. The existence of an opportunity for another use of the land involved shall not be sufficient reason for the cancellation of the Contract. A potential alternative use of the land may be considered

BOOK 1179 PAGE 42

only if there is no proximate land not subject to a Land Use Contract pursuant to the Williamson Act suitable for the use to which it is proposed the subject property be put. The uneconomic character of an existing agricultural use shall likewise not be sufficient reason for cancellation of the Contract. The uneconomic character of an existing use may be considered only if there is no other reasonable or comparable agricultural use to which the land may be put.

(b) Prior to any action by the Board of Supervisors giving tentative approval to the cancellation of any contract, the County Assessor shall determine the full cash value of the land as though it were free of the contractual restriction. The Assessor shall multiply such value by the most recent County ratio announced pursuant to § 401 of the Revenue & Taxation Code and shall certify the product to the Board of Supervisors as the cancellation valuation for the purpose of determining the cancellation fee.

(c) Prior to giving tentative approval to the cancellation of the Contract, the Board of Supervisors shall determine and certify to the County Auditor the amount of the cancellation fee which OWNER must pay to the County Treasurer as deferred taxes upon cancellation. That fee shall be an amount equal to 50% of the cancellation valuation of the property; provided, however, if after the date the contract was initially entered into, the publicly announced county ratio of assessed value to full cash value is changed, the percentage

BOOK 1173 PAGE 42

payment in this subdivision shall be changed so no greater percentage of full cash value will be paid than would have been paid had there been no change in ratio.

(d) If the Board of Supervisors finds that it is in the public interest to do so, it may waive any such payment or any portion thereof, or may make such payment or a portion thereof contingent upon the future use of the land and its economic return to OWNER for a period of time not to exceed the unexpired term of the Contract had it not been cancelled provided:

1) The cancellation is caused by an involuntary transfer or change in the use which may be made of the land, and the land is not immediately suitable, nor will be immediately used, for a purpose which produces a greater economic return to OWNER; and

2) The Board of Supervisors has determined it is in the best interest of the program to conserve agricultural land use that such payment be either deferred or not required.

(e) When the deferred taxes required by this section are collected, the County Treasurer shall distribute the taxes in accordance with the provisions of Government Code § 51283(d).

(f) Upon tentative approval of the cancellation petition, the Clerk of the Board of Supervisors shall record in the Office of the County Recorder a certificate which shall set forth the name of the owner of such land at the time the Contract was cancelled with the amount of the cancellation fee certified by the Board of Supervisors as being

BOOK 1179 PAGE 43

due pursuant to this section, the contingency of any waiver or deferment of payments, and a legal description of the property. From the date of recording of such certificate the Contract shall be finally cancelled and, to the extent the cancellation fee has not yet been paid, a lien shall be created and attached against the real property described therein and any other real property owned by the person named therein as the owner and located within the County of Yolo. Such lien shall have the force, effect and priority of a judgment lien. Nothing in this section shall preclude the Board of Supervisors from requiring payment in full of the cancellation fee prior to the cancellation becoming effective.

(g) In no case shall the cancellation of a Contract be final until the notice of cancellation is actually recorded as provided herein. Notwithstanding any provisions of the Revenue & Taxation Code, any payments required by this section shall not create nor impose a lien or charge on the land as to which a contract is cancelled except as herein provided.

(h) Upon the payment of the cancellation fee or any portion thereof, the Clerk of the Board of Supervisors shall record with the County Recorder a written certificate of the release in whole or in part of the lien.

(i) No tentative approval of cancellation may be given until after the Board of Supervisors has caused notice to be given of and has held a public hearing on the matter. Notice of hearing

(Rev.11-73)

BOOK 1179 PAGE 41

shall be mailed to each and every owner of property under contract within this agricultural preserve and shall be published pursuant to § 6061 of the Government Code. The owner of any property located in the County of Yolo may protest such cancellation; however, such protest shall be advisory only and shall not be binding upon the Board of Supervisors.

EIGHTH: DIVISION OF SUBJECT PROPERTY. In the event the subject property of the Contract is divided, a Contract identical to the Contract then covering the original parcel shall be executed by OWNER on each parcel created by the division at the time of the division. Any agency making an order of division or COUNTY which has jurisdiction shall require, as a condition of approval of the division, the execution of the Contracts provided for in this paragraph.

NINTH: EXCLUSION OF LAND FROM PRESERVE. Removal of any land under the Contract from an agricultural preserve either by change of boundaries of the preserve or disestablishment of the preserve shall be the equivalent of a notice of non-renewal by COUNTY.

TENTH: SUCCESSORS IN INTEREST. The Contract shall run with the land described in it and shall be binding upon the heirs, successors and assigns of the OWNER and COUNTY.

8. The uses determined by COUNTY to be agricultural uses and uses compatible with the agricultural use of the land within the preserve and subject to contract are as follows:

If any use otherwise permissible hereunder is not permissible under any planning or zoning restriction now or hereafter applicable to any of the property then it shall likewise be deemed not legally available to OWNER by the provisions of this Contract, and if any use is permissible under any such planning or zoning provision but is not determined as set forth above to be compatible with the agricultural use of land within this preserve and subject to contract, then it shall not be deemed legally available to OWNER hereunder.

THIRD: EMINENT DOMAIN. When any action in eminent domain for the condemnation of the fee title of any entire parcel of land subject to a contract is filed or when such land is acquired in lieu of eminent domain for a public improvement by a public agency or a person or whenever there is any such action or acquisition by the Federal government or any person, instrumentality or agency acting under authority or power of the Federal government, such contract shall be deemed null and void as to the land actually being condemned or so acquired as of the date the action is filed, and for the purposes of establishing value of such land the contract shall be deemed never to have existed.

When such an action to condemn or acquire less than all of a parcel of land subject to a contract is commenced, the contract shall be deemed

BOOK 1173 PAGE 75

null and void as to the land actually condemned or acquired and shall be disregarded in the valuation process only as to the land actually being taken, unless the remaining land subject to contract will be adversely affected by the condemnation, in which case the value of that damage shall be computed without regard to the contract.

The contract shall be null and void for all land actually taken or acquired; provided, however, that should any such action be dismissed, or should any interest be conveyed for non-public use, the contract shall be reinstated as of the date the action is dismissed or the conveyance is recorded.

FOURTH: TERM AND RENEWAL. The initial term of the Contract shall be for ten (10) years, commencing as of the first day of March next succeeding the date of approval of the contract by the Board of Supervisors of the County of Yolo, and shall terminate on the last day of February of the tenth (10) year thereafter. The first day of March shall be deemed to be the "anniversary date" of the Contract, and on the anniversary date of the Contract a year shall be automatically added to the term unless notice of non-renewal is given as herein provided. If either OWNER or COUNTY desires in any year not to renew the Contract, that party shall serve written notice of non-renewal of the Contract upon the other party in advance of the anniversary date. Unless such written notice is served by OWNER at least ninety (90) days prior to the anniversary date or by COUNTY at least sixty (60) days prior to renewal date, the Contract shall be considered renewed as provided

BOOK 1179 PAGE 76

BOOK 1179 PAGE 75

above. At any time prior to the anniversary date either party may in writing withdraw its notice of non-renewal. Upon request by the OWNER, the Board of Supervisors may authorize OWNER to serve notice of non-renewal on a portion of the land under contract.

FIFTH: NO PUBLIC FUNDS. The OWNER understands that he is not entitled to any public funds by reason of the execution of the Contract or any renewal thereof although the use of the subject property is limited as aforesaid.

SIXTH: TERMINATION. Subject to the procedural conditions contained herein, OWNER may elect to terminate the Contract without penalty when one of the following circumstances is found to exist:

(a) The laws of California cease to implement Article XXVIII of the State Constitution in a manner providing benefits and restrictions substantially similar to those embodied in Article 1.5 (commencing with § 421) of Chapter 3 of Part 2 of Division 1 of the Revenue and Taxation Code. To be substantially similar, it is hereby agreed that said implementing measures must include provisions for a land valuation system basing value of the land on those uses legally available to OWNER as the basis for assessment, and must not require that OWNER permit entry of the public on subject property.

(b) Future conservation or agricultural legislation achieving a substantially similar public benefit is enacted by the California Legislature and is applied to subject property.

(Rev.2-74)

BOOK 1179 PAGE 77

(c) The real property tax is abolished as a source of revenue.

The following procedures shall be followed to elect the termination of the Contract:

(a) Written notice of the election to terminate the Contract shall be given the Board of Supervisors of Yolo County by OWNER.

(b) The Board of Supervisors shall have thirty (30) calendar days to review the proposal and the information submitted in support thereof.

(c) If the Board does not act within said thirty (30) days to set a hearing within an additional thirty (30) days, it shall effect the termination by recording a notice of termination with the County Recorder and filing a copy thereof with the State Department of Agriculture. If the Board so sets a hearing, it shall give notice to OWNER and shall consider the election to terminate in the same manner as it would a request for cancellation as provided in Section SEVENTH of the Contract.

SEVENTH: CANCELLATION. The Contract may not be cancelled in whole or in part except pursuant to a request by OWNER as provided herein.

(a) The Board of Supervisors of COUNTY may approve the cancellation of the Contract only if it finds that cancellation is not inconsistent with the purposes of the California Land Conservation Act and is in the public interest. The existence of an opportunity for another use of the land involved shall not be sufficient reason for the cancellation of the Contract. A potential alternative use of the land may be considered

BOOK 1179 PAGE 73

only if there is no proximate land not subject to a land use contract pursuant to the Williamson Act suitable for the use to which it is proposed the subject property be put. The uneconomic character of an existing agricultural use shall likewise not be sufficient reason for cancellation of the Contract. The uneconomic character of an existing use may be considered only if there is no other reasonable or comparable agricultural use to which the land may be put.

(b) Prior to any action by the Board of Supervisors giving tentative approval to the cancellation of any contract, the County Assessor shall determine the full cash value of the land as though it were free of the contractural restriction. The Assessor shall multiply such value by the most recent County ratio announced pursuant to § 401 of the Revenue and Taxation Code and shall certify the product to the Board of Supervisors as the cancellation valuation for the purpose of determining the cancellation fee.

(c) Prior to giving tentative approval to the cancellation of the contract, the Board of Supervisors shall determine and certify to the County Auditor the amount of the cancellation fee which OWNER must pay to the County Treasurer as deferred taxes upon cancellation. That fee shall be an amount equal to 50% of the cancellation value of the property; provided, however, if after the date the contract was initially entered into, the publicly announced county ratio of assessed value to full cash value is changed, the percentage

payment in this subdivision shall be changed so no greater percentage of full cash value will be paid than would have been paid had there been no change in ratio.

(d) If the Board of Supervisors finds that it is in the public interest to do so, it may waive any such payment or any portion thereof, or may make such payment or a portion thereof contingent upon the future use of the land and its economic return to OWNER for a period of time not to exceed the unexpired term of the Contract had it not been cancelled provided:

1) The cancellation is caused by an involuntary transfer or change in the use which may be made of the land, and the land is not immediately suitable, nor will be immediately used, for a purpose which produces a greater economic return to OWNER; and

2) The Board of Supervisors has determined it is in the best interest of the program to conserve agricultural land use that such payment be either deferred or not required.

(e) When the deferred taxes required by this section are collected, the County Treasurer shall distribute the taxes in accordance with the provisions of Government Code § 51283(d).

(f) Upon tentative approval of the cancellation petition, the Clerk of the Board of Supervisors shall record in the Office of the County Recorder a certificate which shall set forth the name of the owner of such land at the time the Contract was cancelled with the amount of the cancellation fee

certified by the Board of Supervisors as being due pursuant to this section, the contingency of any waiver or deferment of payments, and a legal description of the property. From the date of recording of such certificate the Contract shall be finally cancelled and, to the extent the cancellation fee has not yet been paid, a lien shall be created and attached against the real property described therein and any other real property owned by the person named therein as the owner and located within the County of Yolo. Such lien shall have the force, effect and priority of a judgment lien. Nothing in this section shall preclude the Board of Supervisors from requiring payment in full of the cancellation fee prior to the cancellation becoming effective.

(g) In no case shall the cancellation of a Contract be final until the notice of cancellation is actually recorded as provided herein. Notwithstanding any provisions of the Revenue and Taxation Code, any payments required by this section shall not create nor impose a lien or charge on the land as to which a contract is cancelled except as herein provided.

(h) Upon the payment of the cancellation fee or any portion thereof, the Clerk of the Board of Supervisors shall record with the County Recorder a written certificate of the release in whole or in part of the lien.

(i) No tentative approval of cancellation may be given until after the Board of Supervisors has caused notice to be given of and has held a public

BOOK 1179 PAGE 81

hearing on the matter. Notice of hearing shall be mailed to each and every owner of property under contract within this agricultural preserve and shall be published pursuant to § 6061 of the Government Code. The owner of any property located in the County of Yolo may protest such cancellation; however, such protest shall be advisory only and shall not be binding upon the Board of Supervisors.

EIGHTH: DIVISION OF SUBJECT PROPERTY. In the event the subject property of the Contract is divided, a Contract identical to the Contract then covering the original parcel shall be executed by OWNER on each parcel created by the division at the time of the division. Any agency making an order of division or COUNTY which has jurisdiction shall require, as a condition of approval of the division, the execution of the Contracts provided for in this paragraph.

NINTH: EXCLUSION OF LAND FROM PRESERVE. Removal of any land under the Contract from an agricultural preserve either by change of boundaries of the preserve or disestablishment of the preserve shall be the equivalent of a notice of non-renewal by COUNTY.

TENTH: SUCCESSORS IN INTEREST. The Contract shall run with the land described in it and shall be binding upon the heirs, successors and assigns of the OWNER and COUNTY.

B. It is mutually agreed:

(1) That any award of damages in connection with any condemnation for public use of or injury to said property or any part thereof is hereby assigned and shall be paid to Beneficiary who may apply or release such moneys received by him in the same manner and with the same effect as above provided for disposition of proceeds of fire or other insurance.

(2) That by accepting payment of any sum secured hereby after its due date, Beneficiary does not waive his right either to require prompt payment when due of all other sums so secured or to declare default for failure so to pay.

(3) That at any time or from time to time, without liability therefore, and without notice, upon written request of Beneficiary and presentation of this Deed and said note for endorsement, and without affecting the personal liability of any person for payment of the indebtedness secured hereby, Trustee may: reconvey any part of said property; consent to the making of any map or plat thereof; join in granting any easement thereon; or join in any extension agreement or any agreement subordinating the lien or charge hereof.

(4) That upon written request of Beneficiary stating that all sums secured hereby have been paid, and upon surrender of this Deed and said note to Trustee for cancellation and retention or other disposition as Trustee in its sole discretion may choose and upon payment of its fees, Trustee shall reconvey, without warranty, the property then held hereunder. The recitals in such reconveyance of any matters or facts shall be conclusive proof of the truthfulness thereof. The Grantee in such reconveyance may be described as "the person or persons legally entitled thereto."

(5) That as additional security, Trustor hereby gives to and confers upon Beneficiary the right, power and authority, during the continuance of these Trusts, to collect the rents, issues and profits of said property, reserving unto Trustor the right prior to any default by Trustor in payment of any indebtedness secured hereby or in performance of any agreement hereunder, to collect and retain such rents, issues and profits as they become due and payable. Upon any such default, Beneficiary may at any time without notice, either in person, by agent, or by a receiver to be appointed by a court, and without regard to the adequacy of any security for the indebtedness hereby secured, enter upon and take possession of said property or any part thereof, in his own name sue for or otherwise collect such rents, issues, and profits, including those past due and unpaid, and apply the same, less costs and expenses of operation and collection, including reasonable attorney's fees upon any indebtedness secured hereby, and in such order as Beneficiary may determine. The entering upon and taking possession of said property, the collection of such rents, issues and profits and the application thereof as aforesaid, shall not cure or waive any default hereunder or invalidate any act done pursuant to such notice.

(6) That upon default by Trustor in payment of any indebtedness secured hereby or in performance of any agreement hereunder, one or more of the counties of Amador, Colusa, Contra Costa, El Dorado, Inyo, Nevada, Placer, Plumas, Sacramento, Sierra, Solano, Sutter, Tuolumne, Yolo and Yuba, collectively referred to as "Beneficiary" under the Deed of Trust, may declare all sums secured hereby immediately due and payable by delivery to Trustee of written declaration of default and demand for sale and of written notice of default and of election to cause to be sold said property, which notice Trustee shall cause to be filed for record. Beneficiary also shall deposit with Trustee this Deed, said note and all documents evidencing expenditures secured hereby.

After the lapse of such time as may then be required by law following the recordation of said notice of default, and notice of sale having been given as then required by law, Trustee, without demand on Trustor, shall sell said property at the time and place fixed by it in said notice of sale, either as a whole or in separate parcels, and in such order as it may determine, at public auction to the highest bidder for cash in lawful money of the United States, payable at time of sale. Trustee may postpone sale of all or any portion of said property by public announcement at such time and place of sale, and from time to time thereafter may postpone such sale by public announcement at the time fixed by the preceding postponement. Trustee shall deliver to such purchaser its deed conveying the property so sold, but without

any covenant or warranty, express or implied. The recitals in such deed of any matters or facts shall be conclusive proof of the truthfulness thereof. Any person, including Trustor, Trustee, or Beneficiary as hereinafter defined, may purchase at such sale.

After deducting all costs, fees and expenses of Trustee and of this Trust, including cost of evidence of title in connection with sale, Trustee shall apply the proceeds of sale to payment of: all sums expended under the terms hereof, not then repaid, with accrued interest at the amount allowed by law in effect at the date hereof; all other sums then secured hereby; and the remainder, if any, to the person or persons legally entitled thereto.

(7) Beneficiary, or any successor in ownership of any indebtedness secured hereby, may from time to time, by instrument in writing, substitute a successor or successors to any Trustee named herein or acting hereunder, which instrument, executed by the Beneficiary and duly acknowledged and recorded in the office of the recorder of the county or counties where said property is situated, shall be conclusive proof of proper substitution of such successor Trustee or Trustees, who shall, without conveyance from the Trustee predecessor, succeed to all its title, estate, rights, powers and duties. Said instrument must contain the name of the original Trustor, Trustee and Beneficiary hereunder, the book and page where this Deed is recorded and the name and address of the new Trustee.

(8) That this Deed applies to, inures to the benefit of, and binds all parties hereto, their successors and assigns. The term Beneficiary shall mean the owner and holder, including pledgee, of the note secured hereby, whether or not named as Beneficiary herein. In this Deed, whenever the context so requires, the masculine gender includes the feminine and/or neuter, and the singular number includes the plural.

(9) That Trustee accepts this Trust when this Deed, duly executed and acknowledged, is made a public record as provided by law. Trustee is not obligated to notify any party hereto of pending sale under any other Deed of Trust or of any action or proceeding in which Trustor, Beneficiary or Trustee shall be a party unless brought by Trustee.

The undersigned Trustor, requests that a copy of any notice of default and any notice of sale hereunder be mailed to him at his address hereinbefore set forth.

Approved by the Sacramento Regional Area Planning Commission - January 15, 1976

PRINCIPLES FOR A "208" WATER QUALITY WORK PROGRAM FOR THE SACRAMENTO REGION

1) The Commission should establish an Environmental Management Policy Committee to ensure the full participation of local elected officials and citizens in the 208 work program from its inception to its completion.

2) The 208 work program should be broadly conceived to incorporate land use, transportation, and air quality considerations as they relate to water quality issues. The objective should be to merge currently independent air, water, and environmental planning programs to meet environmental standards.

3) The 208 work program should build upon previous planning studies by local, areawide, and state agencies and should strengthen continuing planning programs. Staff expertise of local and state agencies should be fully utilized and not duplicated.

4) The 208 work program should be designed to assign work and EPA funds to the agency (local, areawide, or state) that can most appropriately provide the service. Consulting services and expansion of SRAPC staff should be minimal. Funds should be administered through the Commission's Joint State/Federal Integrated Grant process.

5) Prior to preparation of the 208 work program, local officials should be asked to identify water quality planning issues and problems. The 208 work program should be responsive to these locally identified issues and problems to the extent

possible.

6) The 208 work program should recognize the State as a "full partner" in the planning process so its expertise can be utilized in solving problems within the region and the regional problems can be dealt with in a larger geographic context.

7.) The 208 work program should recognize and support the completion of waste water treatment facilities that are in final "201" planning or construction stages and focus on problems not dealt with by these facilities and/or corrective actions needed beyond the completion date of these facilities.

RESOLUTION NO. 76-18

(Resolution Initiating Proceedings for District Reorganization)

WHEREAS, a resolution of application for reorganization consisting of the dissolution of the West Sacramento Sanitary District and County Service Area No. 5., and the formation of the East Yolo Community Services District was adopted by this Board on December 1, 1975, requesting initiation of proceedings for the accomplishment of said reorganization and said resolution was filed with the Yolo County Local Agency Formation Commission; and

WHEREAS, the Yolo County Local Agency Formation Commission has reviewed said application, duly held the public hearing as required by law on said application, and has filed with the Board of Supervisors of Yolo County its Resolution No. 76-1 dated February 20, 1976, making determination and approving said application with conditions; and

WHEREAS, said Commission has considered and adopted the Environmental Impact Report on the proposed reorganization; and

WHEREAS a certified copy of said Resolution No. 76-1 has been filed with the Clerk of this County;

NOW, THEREFORE, BE IT RESOLVED AS FOLLOWS:

1. Each of the foregoing recitals is true and correct.

2. The nature of each proposed change of organization and the name or names of all districts for which any such change of organization is proposed are as follows:

Dissolution of WEST SACRAMENTO SANITARY DISTRICT
Dissolution of COUNTY SERVICE AREA NO. 5
Formation of EAST YOLO COMMUNITY SERVICES DISTRICT

3. Upon said reorganization, the East Yolo Community Services District shall assume the duties and provide the services that are currently assumed and provided by the West Sacramento Sanitary District and County Service Area No. 5,

without any interruption in service. Said District shall also be authorized to supply inhabitants of the district with water for domestic and other uses. For a full and complete description of said reorganization and the terms and conditions thereto, reference is hereby made to the Yolo County Local Agency Formation Commission Resolution No. 76-1, dated February 20, 1976.

4. Preliminary proceedings were commenced by Resolution of Application of the Yolo County Board of Supervisors, Resolution No. 75-146, dated December 1, 1975. The reasons for the proposed reorganization as set forth in the resolution of application, are as follows:

(a) It will be an area-wide, multi-purpose entity;

(b) It provides the most flexible organizational structure.

(c) Its formation will immediately reduce the number of special districts in East Yolo and enable the same agency for the first time to provide four major urban services on an area-wide basis;

(d) It possesses the ability to fold in additional urban services over time, providing the framework essential for orderly development, coordination, and delivery of services;

(e) It provides a Board of Directors elected by the residents of the District;

(f) It enables proper funding;

(g) A community services district is a "resident-voter" district, governed by either a 3 or 5 member Board of Directors. To achieve the most democratic representation possible, a 5-member Board would be desireable. The popularly elected Board will provide local control, an element of self-government approaching that of a municipality's city council, and a spokesman on matters

relating to the provision of East Yolo's services.

(h) In contrast to the current operations of Washington Water and Light Comapny, the District's Board meetings will furnish a regular, local forum for user input.

(i) The District will constitute a user-controlled entity to negotiate with Washington Water and Light Company concerning purchase of the company.

(j) The District will give East Yolo a locally controlled agency, capable of providing the area park and recreation service. When Community Service Area NO. 5 was established, it was the only viable approach to provide East Yolo recreation on an area-wide basis. Now, the Community Services District creates an area-wide multi-purpose entity which more precisely meets the requirements of the Knox-Nisbet Act and LAFCO's Standards of Evaluation.

(k) The District will minimize operating duplications which should enable operating savings. Water and sewer are compatible functions, requiring similar types of maintenance, personnel and equipment. Water and sewer bills for a majority of the District's residents could be consolidated into one billing. The billing equipment of West Sacramento Sanitary District is now capable of simultaneously billing for both sewer and water service. Consolidation of these services under this alternative would make this equipment part of the Community Services District.

(l) The District will be a responsible local entity to make the day-to-day decisions required of a utility serving roughly 27,000 people.

(m) The District's boundaries will include Washington Water and Light Company's service area, West Sacramento

Sanitary District, most of County Service Area No. 5, and all of the land in East Yolo likely to develop within the next twenty years. Boundaries of this size will provide the East Yolo Area an element of self-identity, reduce the need for small additions to the District, and guarantee that all of East Yolo will be served by the same water and sewer systems.

(n) The District's boundaries will allow long-range water and sewer system planning. This will enable orderly expansion of the District's water and sewer systems and serve to make these services available to undeveloped land within the District as it is urbanized. This long-range planning should produce economic savings for the District's residents and increase the efficiency of both sewer and water service.

(o) The District's boundaries will enable long range recreation planning. Such planning is essential if East Yolo is to utilize fully its recreation resources and adequately meet its recreation needs.

(p) The District will be able to utilize "zones" to incur bonded indebtedness, levy taxes, and collect rates or charges for the construction, maintenance, and operation of improvements and the provision of services where the improvements and services will not be of district-wide benefit. This will protect properties not receiving service from being taxed for these services or the related bonded indebtedness.

5. March 16, 1976, at the hour of 3:00 o'clock P.M. at the chambers of the Board of Supervisors, Room 207, County Courthouse, Woodland, California, is fixed as the date, time and place of the hearing on the proposed reorganization.

6. Any interested person desiring to make written protest

against said reorganization, shall do so by written communication filed with the Clerk of the County, not later than the hour set for hearing. A written protest by a landowner shall contain a description sufficient to identify the land owned by him; a protest by a voter shall contain the residential address of such voter.

7. RESOLUTION NO. 76-50

(Resolution in Opposition to Northern California Port Authority)

WHEREAS, California Assemblyman Lockyer has introduced AB 3782 in the California Legislature 1975-76 Regular Session; and

WHEREAS, said Bill proposes to create a Northern California Port Authority without specified powers, duties or responsibilities; and

WHEREAS said Bill fails to set forth the proposed structure of such Authority; and

WHEREAS, said Bill makes general references to prevention of economic waste, achievement of economies of scale, precluding excessive competition and unjustifiable expenditures of public moneys and comprehensive methods of financing improvements; and

WHEREAS, said Bill includes within its jurisdiction ports in Sacramento and Yolo Counties; and

WHEREAS, the Port of Sacramento has operated successfully and economically since its opening in 1963, without undue burden upon the taxpayers; and

WHEREAS, the Port has served the needs of the economic unit it serves, to wit, Sacramento and Yolo Counties and much of northern California,

NOW, THEREFORE, BE IT RESOLVED that the Port Commission of the Sacramento-Yolo Port District having considered the proposed legislation does oppose it in principle as well as AB 3782 specifically; and

BE IT FURTHER RESOLVED that the Commission finds the premises upon which the Bill is based to be inapplicable to the Sacramento-Yolo Port District and its operation; and

BE IT FURTHER RESOLVED that the Commission finds that there is no connection between the economic area served by its

facilities and most, if not all, other northern California ports that justifies considering it as a part of the proposed Authority; and

BE IT FURTHER RESOLVED that the Commission finds that the present competitive structure of ports has best served the needs of the ports, shippers, steamship companies and the people of California; and

BE IT FURTHER RESOLVED that copies of this resolution be forwarded to all members of the Sacramento and Yolo Counties delegation in the California Legislature, Assemblyman Lockyer and each member of the Assembly Committee on Resources, Land Use and Energy, and to the Boards of Supervisors of Sacramento and Yolo Counties and the Council of Sacramento City; and

BE IT FURTHER RESOLVED that the Director is instructed to oppose AB 3782 and Bills that propose to create any similar agency.
